

Please read this manual carefully before use.

**Box contents**

- KS MyJack2
- Micro USB charge cable
- Extension cable
- User manual

**Functions**

1. MFB (Multi-Function Button)
2. LED indicator
3. Micro USB charging port
4. Built-in microphone

**Guidance and general safety instructions**

- Due care and attention is required when driving a motor vehicle. The operation of any device whilst driving may cause a lack of attention, and pose a hazard to other road users
- Please follow general safety guidelines before and when using any connected device
- Do not attempt to connect your product whilst driving
- Ensure your product fits correctly and securely into the power outlet socket before driving
- Do not attempt to adjust or tune your music device whilst vehicle is in motion or operating the controls of the vehicle
- Do not insert any objects other than the correct adapter into the power outlet without disconnecting the battery of the vehicle
- We do not assume any responsibility for personal injury, or damage incurred due to misuse, or safe operating of devices connected to your vehicle or the vehicle's power outlet
- Please drive carefully

**Instructions for use**

**Charging the MyJack2**

Give the MyJack2 a full charge before its first use.

1. Connect the Micro USB charge cable to the Micro USB charging port (3) and plug into a power source
2. The LED indicator (2) will be solid blue whilst charging which may take up to 2 hours
3. Once fully charged the LED indicator (2) will turn off

**Note:** Please allow up to 2.5 hours for the first charge.

**Getting started**

- To turn the MyJack2 on, press and hold the MFB (1) for 5 seconds
- To turn the MyJack2 off, press and hold the MFB (1) for 7 seconds

**Note:** The MyJack2 will shut down automatically after 15 minutes of no activity.

4

5

[continued...]

**...continued) Re-pairing or pairing new devices**

- Hold the MFB (1) for 4 seconds and the MyJack2 will re-enter pairing mode

**Note:** If a previously paired device is not present within the wireless connectivity range then the receiver will re-enter pairing mode.

**Connecting two devices to the MyJack2**

Two devices can be connected to the MyJack2 at the same time.

1. Please see 'Pairing to a wireless device' on how to connect a device, then repeat the process again with the second device you wish to connect

**Playing music on your MyJack2**

1. Plug the MyJack2 into the aux-in port of the speaker/stereo
2. Play music on your device and the sound will play through the speaker

6

7

**Note:** Some devices may require you to select the audio output.

**Note:** Whilst playing music please use your device to adjust the volume.

Play/Pause	Short press MFB (1)
Skip songs	Double press the MFB (1)

**Note:** Only one device can play music at a time. Please pause the music from one device, then press play from another device. There might be a few seconds delay in swapping music sources.

**Note:** Your device will have an internal amplifier and if it is playing digital files like MP3s it will also have an integrated DAC (Digital Audio Converter). If you turn the volume up to 100%, your device will be sending a distorted signal. To avoid this, and to get the best quality from the speaker, we recommend that you do not run your device any higher than 95% volume. Some devices output higher than others, so you may need to reduce the volume if you experience distortion.

**Call handling**

You can answer phone calls whilst connected wirelessly to your device.

Answer phone call	Short press MFB (1)
Reject phone call	Press MFB (1) for one second
End phone call	Short press MFB (1)
Re-dial last phone number	Double press MFB (1) while music is not playing

**Care for your MyJack2**

**Please DON'T:**

- Get the MyJack2 wet
- Drop the MyJack2 as this will invalidate your warranty
- Open up the MyJack2. There are no user serviceable parts inside
- Expose MyJack2 to extreme temperatures or rapid changes of hot to cold or vice versa

**Please DO:**

- Clean the MyJack2 with a soft dry cloth and no detergents

1. Do not install this equipment in a confined or building-in space such as a book case or similar unit, and remain a well ventilation conditions at open site. The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains etc.

2. **WARNING:** Only use attachments/accessories specified or provided by the manufacturer (such as the exclusive supply adapter, battery etc.).

3. **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on apparatus.

4. **CAUTION:** Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

5. **WARNING:** The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

6. This apparatus is for professional use only, access for children is prohibited.

12

13

7. **Correct Disposal of this product.** This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

8. No naked flame sources, such as lighted candles, should be placed on the apparatus.

9. Attention should be drawn to environmental aspects of battery disposal.

10. The product is designed to use in moderate climates

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) l'appareil ne doit pas produire de brouillage;
- 2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
